Talentia Consolidation & Reporting

Talentia Consolidation & Reporting is the comprehensive consolidation solution aligned with domestic and international standards. Leverage a single unified platform to generate KPIs and reporting, facilitate communication and accelerate consolidation, in compliance with rules and procedures.

Smart and secure data collection

Securely collect data from multiple sources into one common repository. You can also set up user-specific validation workflows to track and monitor data acquisition progress.

Automated consolidation

Transform data into consolidated information through process automation: Currency conversion, intercompany eliminations, etc. Talentia Consolidation & Reporting allows for faster and more accurate close, using various methods and pre-consolidation adjustments - either automatic or manual.

Financial reports, plain and simple

Leverage multiple report generation combinations to meet the most complex needs. Talentia Budgeting & Planning offers a wide range of standard/dynamic reporting options, KPIs configuration and interactive dashboards. You can also create consolidated notes automatically via familiar MS Word format.

Organisational flexibility

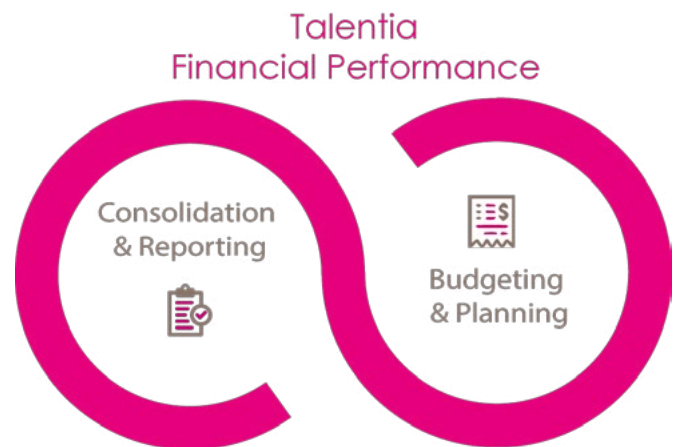

Talentia Consolidation & Planning integrates a complete and multidimensional financial database. Through built-in simulation, visualise the impact of consolidation scope entries/exits and changing consolidation methods. Each setting can be aligned to your work methods.

Information traceability

An audit trail is available at every stage of the consolidation process and accessible in real-time. Produce consolidated financial information with assurance of traceability and quality of all entries and operations.

Simple to deploy

Talentia Consolidation & Reporting is easy to deploy, use and customise. An intuitive user interface provides quick access to tools and information for enhanced user experience.

The benefits for you

Faster book closing

Reliable financial communication

Multiple consolidation & reporting options
