Talentia Financial Performance

An end-to-end solution for consolidation, reporting, budgeting and forecasting. Designed for organisations of all sizes, Talentia Financial Performance offers a dynamic, collaborative solution to reduce cycle time and boost the performance of your finance office.

Securely collect data from multiple sources into one common repository for unified consolidation and reporting, reducing manual processes and errors.

Drive the entire budgeting & planning process from data collection to forecast automation and reporting, leveraging a single, accurate source of information.

Accelerate consolidation through automated processes (monetary conversion, intercompany elimination, etc.), pull and transform data from decentralised sources for faster and more accurate close.

Accelerate budgeting in a collaborative mode with built-in automation, modelling and customizable workflow engines.

Produce consolidated financial reports with assurance of traceability and quality of all entries and operations.

Manage multiple budget versions based on predefined hypothesis and rolling forecasts.

Tailor your reports, configure KPIs using interactive dashboards and embarked built-in financial intelligence tools.

Simulate and analyse data in real time, monitor and save your simulations and define multi-year strategic plans.

Enhance financial communication through easy creation of annual/activity reports or any other statement or notes in familiar MS Office formats (Word...).

*The **benefits** for you*

Unified view for unlimited, comprehensive drill-down and analysis

Reduced cycle time through enhanced collaboration and automation

Reliable performance measure aligned with **corporate objectives**
