

Effective solutions for business success [■]

As the world of work is changing and the reach of organisations extends to new territories, HR teams are faced with new challenges managing a global workforce.

Often equipped with many disparate and legacy systems, organisations are not always able to rely or trust their own data.

With Talentia HCM, HR can benefit from a single source of truth, automate and streamline manual processes, eliminate tedious time-consuming tasks and focus attention and align teams with strategic business initiatives.

Talentia Human Capital Management (HCM) is a best-in-class solution that helps simplify complexities and allows companies to better develop, manage, reward and retain their most important asset - their people.

The integrated modular suite provides a flexible, people-centric solution that improves the day-to-day execution of HCM strategies. It drives the HR processes critical for the organisation's success and helps companies to develop and maintain a competitive talent advantage.

A modern approach to HCM [■]

By empowering the organisation to better focus the value of its people towards its goals, Talentia HCM helps significantly improve organisation performance and results. With hundreds of clients worldwide, Talentia HCM supports thousands of HR professionals, employees and managers, from some of the world's best-known organisations.

Designed to be deployed in-house or on a Software-as-a-Service (SaaS) basis, Talentia HCM delivers a flexible, powerful and comprehensive solution to combat many of the challenges faced by today's HR functions.

Strategic HRM [■]

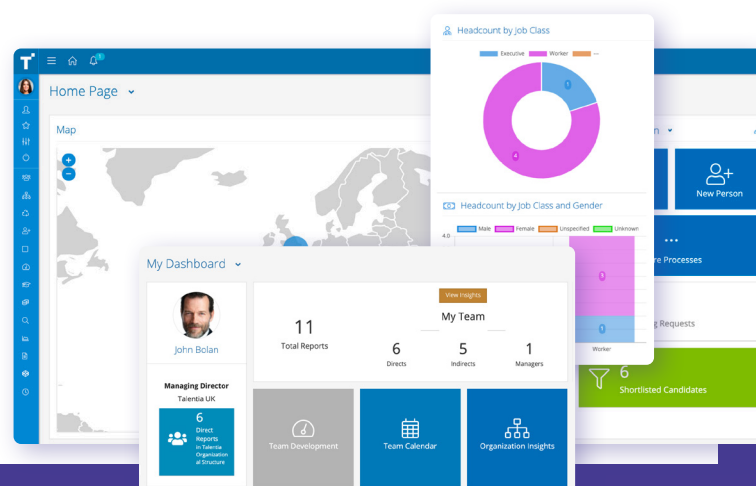

Unlock the potential of your talent and engage them in career development. Talentia's suite of HR modules will help ensure your talent are visible, supported and motivated. Track skills and experience, manage performance and successions, build career plans in line with individual and corporate goals. Empower your Talent to learn and grow.

Agile process [■]

Inbuilt workflows and self-service means time consuming tasks can be automated and decentralised, reducing administration and giving the HR team time to focus on strategic issues and business performance.

Secure Payroll processes [■]

Legal, social, fiscal constraints are constant for HR. As new regulations come into force each year Talentia Payroll, available only in France, always stays ahead of upcoming changes. Feel confident that your payroll is accurate.

Your partner now and in the future [■]

Talentia delivers an innovative way for users to optimise the management of their people in a secure, GDPR compliant environment. Talentia understands that the HR landscape does not stand still and therefore clients require new advancements in technology to enable them to achieve their evolving objectives. That is why the solution is modular and built on a flexible and modern architecture. You can add on modules as and when you need them. A scalable solution to grow as you do.

Global processes at a local level [■]

Talentia HCM is natively designed to support common challenges faced with multi country complexities. With configuration tools to manage specific fields, drop down lists and visibility by country with a rich set of configuration options to suit customer needs at different levels. This powerful feature will automatically display or hide information based on the user's company & country. Global HR will remain in control of the full workforce with global visibility, but can be confident knowing only country specific information is visible in local areas.

Talentia HR Suite [■]

A suite of modules covering the whole hire to retire process.
